

The Liner That Works. Anytime. Anywhere.

HAUL ASPHALT ONE DAY,
SAND AND GRAVEL THE NEXT

REDUCES MAINTENANCE
OF DUMP EQUIPMENT

LOADS MOVE...FAST

$\frac{1}{8}$ WEIGHT OF STEEL;
 $\frac{1}{3}$ WEIGHT OF ALUMINUM

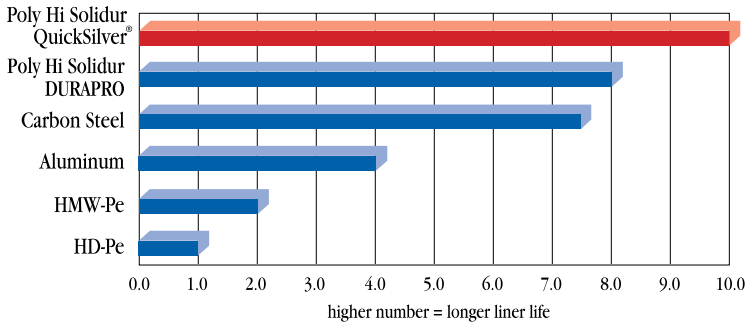

OUTWEARS ALUMINUM 2.5:1

3 YEAR WARRANTY

National Distributor for Quicksilver

Field Wear Performance

Quicksilver is the only liner that has been proven to work with hot asphalt after 15 years of field testing.

The Right Brand.

QuickSilver® is a continuous-length, seamless liner engineered to withstand harsh field conditions, allowing you to cross these off your worry list: sticky or frozen loads, shoveling, risky dump angles, chewed up floors, damaged hydraulics and brakes, backhoe cleanouts, warming sheds, and wash downs. With QuickSilver working for you, drivers stay put and loads do the moving.

QuickSilver liners haul asphalt one day, sand and gravel the next, making your equipment ready for almost any job. Earth Transport, San Antonio, lines all its end dump trailers with QuickSilver because of its fast, easy release of aggregate, lime, topsoils, hot asphalt mix and petroleum coke. Joe Poss estimates that his lined units release dirt/gravel mix as much as 50% faster than unlined trucks.

Loads move — even in subfreezing weather. Unlined vs. QuickSilver lined units tell the story at the municipal sludge handling facility in Fort Wayne, IN. “We’re hauling twice the material in the QuickSilver lined truck,” says Stacey Petrovas, Supervisor, Water Pollution Control Department. “Anyone handling sludge like we are needs to have QuickSilver in their trucks.”

Whether it’s dump trailers, dump bodies, bottom dumps, gravel trains, or transfer trailers, QuickSilver means faster load release and less equipment damage. “It’s less expensive to replace liners in a half day than wait as long as a week for a new aluminum floor,” states Donnie Miller, owner, C.J. Miller, Maryland, one of the first companies to test QuickSilver liners.

Aero Industries is also the national distributor for DURAPRO™ dump body liners - a reprocessed heavy duty dump liner.

Bulkhead and hoist pedestal optional.

Unlined

vs.

Quicksilver lined

Quicksilver liners are proven performers with the toughest loads.

Call Aero For All The Answers. We make it easy to get the dump liner that’s right for your needs. Just contact your Aero dealer or an expert Aero customer service technician at 1-800-535-9545. They’re trained to handle all your ordering, installation, and application questions. Call today!
