Sliding Pivot

▲ **775**  
Fixed Sidemount Pivot

Decades of successfully covering dump trucks and trailers have culminated in the 700 Series for medium-duty roll-off trucks. Utilizing the industry's strongest pivots and aluminum arms, the 700 Series is available with fixed, and sliding pivots. Our two-stage, single-cylinder tower safely and easily adjusts the tarp housing.

***Since 1944, Aero Industries has been recognized as a transportation industry innovator.***

**725**

ACTUAL SIZE  
2.44" X 4.69"

### INDUSTRY'S PROVEN ARM TECHNOLOGY

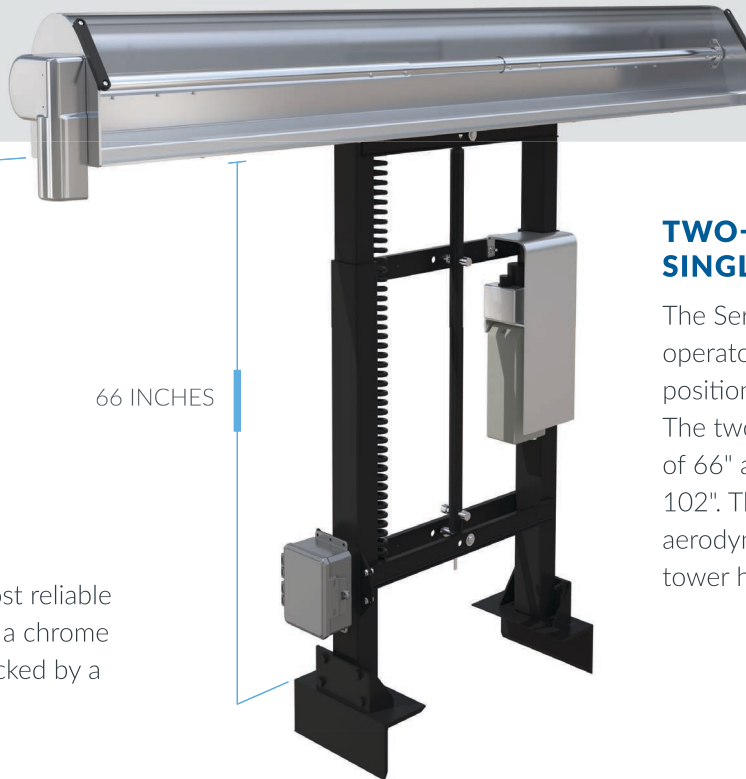

The strength, shape, and size of the extrusions, means our arms are stronger and more durable than the competition. Aero arms are easy to assemble and adjust to the proper length.

102 INCHES

66 INCHES

### TWO-STAGE, SINGLE-CYLINDER TOWER

The Series 700 tower allows the operator to easily adjust the tarp position to match the container height. The two-stage design sits at a height of 66" and can be raised to a height of 102". The tarp is protected by an aerodynamic aluminum housing. Fixed tower height also available.

### ELECTRIC MOTOR

Aero's electric motor is the most reliable in the industry. Equipped with a chrome cover, our proven design is backed by a 3-year warranty.
