

**SELF RETURNING**  
*front-to-back tarp system*

# EASY INSTALLATION AND OPERATION

## **DEPENDABLE AND EASY TO USE MANUAL TARP SYSTEM WITH PRE-ASSEMBLED TARP HOUSING**

Easy Pull is a self-rolling, self-returning, front-to-back tarp system for dump trucks. It is the most economical tarp system on the market with a spring return. Our standard configuration includes 100% pre-assembled tarp housing for fast, easy installation with steel or aluminum mounting strips.

**Multiple width and lengths available**

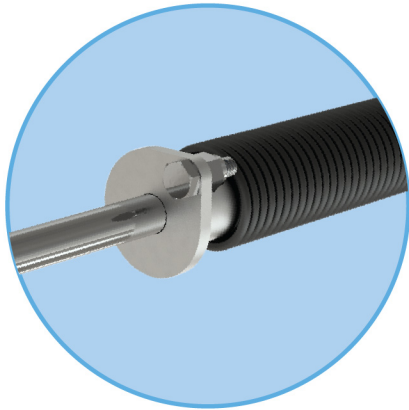

**Mounting strips create tight seal**  
*available in steel or aluminum*

**SHIPPED  
PRE-ASSEMBLED**  
*for easy installation*

# THE EASY SOLUTION

## SPRING ASSEMBLY

Protected inside the aluminum roll-up tube, the spring provides tension as the tarp opens and closes.

## ALUMINUM TARP HOUSING

## MOUNTING STRIPS

Easily attaches the tarp housing securely to the trailer body. Available in both aluminum and stainless steel.

Optional adjustable bracket kit available for mounting on top of the cab shield.

## AERO ROLL-N-PULL

*An economical, one-size-fits-all tarp system*

Roll-N-Pull is a manual crank, front-to-back tarp system for dump trucks. Easy to operate, the crank is mounted on the roll tube. The tarp can easily be pinned in both the open and closed positions.

Manual crank system

Can be pinned in open and closed positions
